Training

ARTICLES | 2 July 2015

The EU SME Centre's experts provided training for partners on June 11th and 12th in Brussels, sharing the latest insights into China's macroeconomic landscape, new Foreign Investment Law, exporting procedures and e-commerce business.

22 partners participated in the two-day training programmes and exchanged views on the primary challenges faced by European businesses in China and how the Centre could provide further help.

The training was organised in partnership with the EUROCHAMBRES.
